

Rotary Actuator

For lifter and slider applications

Design Incorporates:

- 12-48 VDC
- 23-27 RPM Free Speed
- Ball Bearing Construction

Key Features:

4 Stage Helical Gearbox

Precision Hobbed Gear Assemblies

High Torque in a Cost Effective Package

Low Resistance for Superior Efficiency

Rotary Actuator

For lifter and slider applications

Dimensions

Length	6.69 in	170 mm
Width	2.63 in	45.7 mm
Height	7.85 in	199.4 mm
Weight	6.38 lb	2.9 kg

Performance

Peak current	40 amps
Stall torque	1200 lbf·in
Maximum speed	23-27 RPM
